This is an excellent compilation of information and well sourced. I clicked on one of your links (re patent information) and it brought me to a David Martin piece. I've been a follower of his since, literally, the beginning of this covid nonsense with both 'Butterflies' and 'Activate Humanity' with James Purpura. Recently, someone sent me that google document purportedly 'outing' David that I found somewhat reprehensible, but I did go to the MCAM website. Question - have you tried to buy any of the three indices listed on the site that shows to the moment price information, and if you have, what were your results? And if you haven't, I invite you to try. We live in illusion busting times and must go where the information trail leads us. Warm regards, Susan
