

Standard operating procedure: Management of COVID-19 vaccination clinical incidents and enquiries

Document first published:

9 December 2020

Page updated:

15 June 2021

Topic:

[Coronavirus \(https://www.england.nhs.uk/coronavirus/publication/?filter-category=corona-virus\)](https://www.england.nhs.uk/coronavirus/publication/?filter-category=corona-virus), [COVID-19](https://www.england.nhs.uk/coronavirus/publication/?filter-category=covid-19)

[\(https://www.england.nhs.uk/coronavirus/publication/?filter-category=covid-19\)](https://www.england.nhs.uk/coronavirus/publication/?filter-category=covid-19).

Publication type:

[Guidance \(https://www.england.nhs.uk/coronavirus/publication/?filter-publication=guidance\)](https://www.england.nhs.uk/coronavirus/publication/?filter-publication=guidance).

This clarifies the process by which incidents and enquiries related to the COVID-19 vaccination programme are escalated and addressed, at both regional and national levels, and describes the audit and governance process for this.
