World Economic Forum | Transforming Global Business

Forum Members are mid-sized global enterprises that have been selectively sought by the World Economic Forum for their innovative business models, market influence, industry disruption, regional impact, corporate citizenship and visionary leadership.

Forum Members play a major role in global economic prosperity. They are among the top job creators and are essential to a healthy regional and global business ecosystem. Their experience as emerging regional and global industry players and their ambition and capacity to build sustainable global businesses make Forum Members ideal ambassadors for public-private cooperation and multistakeholder efforts.

Together with the World Economic Forum community of Institutional Members, Forum Members are a key group of business stakeholders that engage in public-private cooperation with academics, government and civil society to improve the state of the world.

As of January 2016, the community of Forum Members comprises more than 390 firms from over 60 countries. Membership is by invitation only and a result of a diligent review of selection criteria. Typical Forum Members exceed their industry standards in a variety of metrics, are interested in their role as a global citizen and have a track record of outstanding leadership, setting the bar for business best practices.
