Change of use from agriculture to siting of a storage container 16.41 m2 (retrospective)
Field OS 9978 Bleadon Road Bleadon

The Council objected to the proposal on the following basis :-

- The trees on the site are the subject of a TPO
- The container is sited alongside Sycamore trees – the subject of the TPO
- Best practice with respect to storage within existing tree canopy as explained in BS 5837 would seek to exclude compaction or pressure on the root system of existing trees
- The "Waste Land" as noted in the Design and Access Statement was until quite recently used as a paddock for horses
- The location of the container although painted is not screened and does not merge effectively into its background and stands out when viewed from the adjacent highway.

- That the Hall Management Committee take recognition of the fact that the Parish Council is a statutory body and as such may in cases of emergency wish to have first choice of date in respect to the Coronation Hall. To ensure that this is not an issue in the future the Parish Council request that the Hall Management Committee amend their booking form accordingly as originally requested in February 2004
