

Summary

Bleadon Parish Council recognises and wants to protect Bleadon's Bronze Age rural farming heritage and its settlement character and culture. The Parish endeavours to work towards ensuring community and local food security and protect Bleadon's diverse wildlife and countryside as highlighted in North Somerset Council's current and proposed environmental policies.

Resolutions

Bleadon Parish Council asks North Somerset Council to create a Strategic Gap in the north of Bleadon to help prevent the merging of the settlement of Bleadon, assist in safeguarding the countryside from 'encroachment' from Weston Town Council, and help to protect the setting and character of Bleadon settlement.

Settlement Boundary

By a majority vote councillors resolved to propose no changes to the current settlement boundary.

Renewable Energy

Bleadon Parish Council ask North Somerset Council to remove the 'blanket' renewable energy search areas over Bleadon. This will enable applications to be considered on an individual basis if they arise. The land in Bleadon is mainly Grades 1, 2 and 3a, which will enable Bleadon to focus on growing local food and food security
