 Input to our Theory of Change

THEORY OF CHANGE - Social Contact → Movement Building

We maintain that in order to achieve our vision and realise the change needed to make the UK more welcoming we contribute to building the movement by encouraging and inspiring more new people to become involved in promoting welcome.

Micro level - Social Contact Theory

- How we create change at a local or regional level?

WHO:

CoS UK through providing support for the network and the network itself:-

1. CoS groups (and then their local network of pledged supporters - both individuals and organisations)
2. Streams of Sanctuary e.g. schools, universities

Macro level - Movement Building

- How we create change at a UK level?

WHO:

CoS UK working with:-

1. CoS groups
2. Streams (see separate strategy for details)
3. Partnerships including mass membership organisations
4. Refugee Sector partnerships/coalition campaigns

HOW: Through the practical application of our network principles*

Turning empathy into action i.e. relationships of solidarity

Connecting people through welcoming activities and streams of sanctuary. This encourages friendships, changes attitudes and motivates action for positive change.

Social Contact

Involving people in campaigning and advocacy

Movement building by engaging the mainstream through streams activities and **Sanctuary Awards** and mobilising the network behind campaigning and advocacy initiatives.

Micro level examples

Mrs Y (a destitute asylum seeker) meets Mrs B at a knitting club (a welcoming activity). As Mrs B learns from Mrs Y about her journey and unmet need for protection she becomes inspired to get involved in campaigning activities.

A teacher/librarian/nurse (streams work) meets Abdul at an awareness session and learns more about the asylum system, and is motivated to stand in solidarity for a humane asylum process.

Mr A who fled persecution befriends Mr B. at a local community centre. When Mr A is refused asylum and detained, Mr B is so outraged, that he writes to his MP.

Macro level examples

In 2015, after much public pressure, the UK Government agreed to implement a resettlement programme for Syrian refugees allowing 20,000 to be located in the UK by 2020. The Syrian situation also led to a large grassroots response across the UK and as a result of this 'revolution of generosity' our network has grown considerably.

The public response to the Windrush scandal forced the government to re-examine its Home Office policies and procedures.

City of Sanctuary

Schools of Sanctuary

 National Steering Group

 Over 250 schools listed on the CoS website

 New resource pack to be ready by the end of 2020 including minimum criteria and guidelines

Faith stream of Sanctuary

- ✚ Now being led by Sian Summers-Rees
- ✚ Meetings with senior leaders in the Church of England, Misorti Jewish community, inter-faith groups and others
- ✚ Involvement with the Churches of Sanctuary conference
- ✚ Putting together a steering group
- ✚ Plan to update the website

Local Authorities

- 🏳️ Paper being developed by Ben and Sara Trew hitt – welcome your contributions
- 🏳️ What is a ‘City of Sanctuary?’
- 🏳️ Wider and deeper engagement from Local Authorities – exciting but a challenge

Campaigning priorities

How do we counter the hostile environment?

 Asylum Matters

 What can CoS groups do to put the pressure on local and national government for our key campaigning priorities?

 Sanctuary in Parliament (2018 event there were 45+ MPs engaged including Ministers)

Sanctuary in Politics Courses

🏳️ Courses run in Preston, Bristol and Durham

🏳️ The aim is to raise the voices of people seeking sanctuary and support them with the tools to create change in their own communities and further afield

🏳️ Each participant has a follow-on project...in some cases this has involved starting new CoS groups!

🏳️ Fantastic feedback and hoping to run further courses in 2020

And finally...

👤 Database and online award applications

👤 Solidarity and joint actions with the 'climate movement'

👤 Course development with 'The Forgiveness Project'
