Nuremberg Code Explained: The People vs Pandemic Propaganda

JULY 2, 2021 BY NEWS WIRE 14 COMMENTS

“I WAS JUST FOLLOWING ORDERS” IS NOT A DEFENSE.

Brasscheck TV says...

A lot of mainstream news people and other slugs take offense when they are directed to read the **Nuremberg Code**.

This is my answer to one of them (in this case the editor of a local newspaper).

Bottom Line: Every media person, politician, celebrity, business owner, random busybody etc. who promotes experimental medical procedures without clearly describing them as such is in fact violating Nuremberg Code. This especially includes the criminals at Google, Facebook and Twitter who are not only promoting them with deceit, but are also aggressively censoring the public's discussion of the matter.

Do you have an ideological, non-scientific reason to promote this vaccine? Fine. At least have the decency to ask the correct and accurate question:

“Have you received the experimental (i.e. non-FDA approved) vaccine yet?”

i agree but everytime i hear 'not FDA approved' i cringe. as if the FDA is legitimate or trustworthy. after 911, 1976 fake Swine Flu of NJ, fake AIDS epidemic, Opioid Epidemic, non-scheduled/non-prescribed toxic Fluoride in drinking tap water, and the many involuntary human experiments by Uncle Sam: i have no trust in FDA, CDC, WHO, Doctors, Medical Community or any GOVT institution. according to their extensive track record: they've proven themselves corrupt & illegitimate.

take it for what it's worth: Brasscheck also blames the Chinese for Covid but in a more clever way: he claims China did not create the virus but because Margaret Chan, who happened to be Chinese, worked for WHO, an Uncle Sam proxy. controlled opposition is subtle these days.. Uncle Sam knows we're on to him. this is why this whole 'blame it on China' PsyOp is so sophisticated, intricate, well-designed, and outright believable.

Firstly, the Nuremberg Code came out of series of Military Tribunals after Germany's defeat in WW2.

Secondly, The Code is not legally binding and It is not legally enforceable, as it is a guideline rather than a law, as It came out of a Military Court and not an international Civilian Court.

Sadly, no nefarious Pharmaceutical company nor Government, will be held to account by the Nuremberg Code, Vis-à-vis the Covid-19 "Vaccinations".

First para - At the insistence of the Russians or there never would have been any Nuremberg code.

How can certain nations continue claiming to be exceptional and above international laws and treaties as if they were the Nazi's themselves - yet this is what appears exactly what's been happening to the you know what of aggression however here's a hint -

[Operation Gladio: CIA Network of "Stay Behind" Secret Armies \[GR\]](#)

This article on Global Research has a wealth of information - Operation Gladio: CIA Network of "Stay Behind" Secret Armies - Another and just as interesting is how it all came to pass - An article on 21 Century titled "Rogue Foreign Policy: 'From Nazis to Neocons'" all about how Precott Bush helped create what is now commonly known as "Langley"

'First para - At the insistence of the Russians or there never would have been any Nuremberg code.'

But there was no Russians running the Soviet Union at the time, as it was run by the Jewish controlled Bolsheviks.

None the less the idea originated from what I refer to as the Russians.

It appears necessary to ascertain exactly what is meant by Russia and Jewish - someone could be both Russian and Jewish which I view as a religion.

The only basic requirement to be considered Russian is local ancestry while the only requirement to be considered Jewish is to follow Judaism regardless of local ancestry.

Following religion does not determine A ethnicity or B nationality - a Russian following Judaism is still a Russian.

As shown in this article, some governments are so desperate to get their citizens vaccinated that they are advising people to "mix and match" COVID-19 vaccines:

<https://viableopposition.bl...>

This is how you know that we are all part of a giant health experiment.

Eric Hunt → Charles Homer • 2 days ago

Its NOT an experiment, the perpetrators of this know exactly what the effect will be.
