

New Community Bus for **Bleadon village**

From Monday 30 April 2018, a new community bus will operate in Bleadon. This will replace bus service 5A, which is being rerouted and will no longer serve Bleadon village.

The community bus will be operated by Weston and District Community Transport and will interwork with other community bus services. Community buses operate at scheduled times from roadside bus stops but use minibuses instead of conventional buses.
