Environment

It is important to us that the child feels at home within the working Montessori environment; when a child is comfortable she/he excels. Each child works in small vertical groups, individually, and frequently on a one to one basis with their key worker until they are confident to work on their own. This ensures their progress is closely monitored and that the child's individual needs are met at each crucial stage.

A strong relationship with the child's parents is essential for her/his on-going development and well being. This approach also keeps parents up to speed with their child's progress.

Our school offers a full range of Montessori equipment ranging from practical life to phonetic reading.

Movement is a key factor in Montessori learning and so children have the freedom to work indoors or outdoors to suite their individual needs and to learn in their own way.

We also have a special outdoor area where children can choose to work and where we encourage the children to grow their own fruit, vegetables and flowers.
